

Carlos Vera Diago

Power BI Analyst | SQL · DAX · Power Query | MBA

[LinkedIn](#) · [GitHub](#)

PROFILE

Data-driven operations and financial analyst with 6+ years turning messy operational and financial data into decisions executives act on across healthcare and financial services in Spain and Colombia. Built and owned BI reporting with Power BI, DAX, SAP/Odoo, and Excel-based modeling as a core part of every role. Preparing for DP-900 and DP-600 while extending that hands-on Power BI foundation into Microsoft Fabric, Python, dbt, and BigQuery projects.

SKILLS

- **Core (professional use):** SQL, Power BI (DAX), Power Query, Advanced Excel, SAP ERP, Odoo
- **Building (project-based):** Python, dbt Core, Snowflake, Google BigQuery, Looker Studio, Tableau

WORK EXPERIENCE

Data Analyst, Mirit (Independent / Freelance)

May 2026 - Present

Remote

- Building reporting and automation solutions for small-business clients with Power BI, SQL, and Power Query; leading analysis for MIRIT's Gambia Project to inform future program decisions.

Operations Analyst, General Medical Care

Apr 2023 - Apr 2026

Tarragona, Catalonia, Spain · On-site

- Designed and maintained Power BI dashboards tracking productivity KPIs across 2 provinces, cutting management reporting time by approximately 30% and surfacing previously invisible bottlenecks.
- Governed clinical databases in SAP ERP and Odoo across multiple medical centers, maintaining reliable personnel and patient-flow data.
- Consolidated SAP/Odoo reporting into SQL Server and Power BI dashboards, laying groundwork for Azure/Fabric cloud reporting.
- Translated operational metrics into executive summaries that directly informed staffing and resource decisions.

Financial Data Analyst, Caja Promotora de Vivienda Militar y de Policía

Sep 2019 - Dec 2022

Bogotá, Colombia · On-site

- Built Excel-based valuation and projection models for high-net-worth client portfolios used in executive investment presentations.
- Conducted data-driven due diligence and risk profiling while supporting KYC/AML compliance across the client portfolio.
- Delivered recurring fiscal-health reports and KPI dashboards, translating financial data into strategic recommendations.

Operations Analyst, Médicos Emergencias S.C.

Jun 2015 - Jul 2019

Barcelona, Catalonia, Spain · Hybrid

- Consolidated fragmented operational sources into a centralized internal database, improving reliability across departments.
- Tracked project budgets and timelines through Excel variance analysis while maintaining adherence to fiscal targets.
- Compiled weekly leadership reports, translating operational data into clear, actionable summaries.

DATA PROJECTS

- [B2B Star Schema Power BI](#) - Consolidated 22 source sheets into a fact/dimension model with Power Query, DAX, and an interactive dashboard.
- [HealthFlow Analytics](#) - Hospital-readmissions pipeline using Python, BigQuery, and Looker Studio.
- [PharmaReach](#) - Physician targeting and segmentation across oncology, cardiology, and neurology, built in Python.

EDUCATION

- Data Analytics Bootcamp - Ironhack, 2026
- Master of Business Administration (MBA) - Universitat de Barcelona / EAE Business School, 2020
- B.A. in Communication and Multimedia - Universidad de La Sabana, 2015
